Before you start to build your company, you need to define your problem and explain your solution. This is the thing you'll be telling to investors, friends, partners and people you network with.

Entrepreneurs: Here Is How You Can Find Problems to

Solve ...

Let me say that again. The most common mistake in problem solving is trying to find a solution right away. That's a mistake because it tries to put the solution at the beginning of the process, when what we need is a solution at the end of the process. Here are seven-steps for an effective problem-solving process. 1. Identify the issues.

Seven Steps for Effective Problem Solving in the Workplace

We would like to show you a description here but the site won't allow us.

Brainly

State the problem without implying a solution or blaming anyone, so that you can analyze it without any assumptions and build consensus around whatever solution you arrive at. One way is to state it in terms of a lack of a positive behavior, condition, or other factor, or the presence or size of a negative behavior, condition, or other factor.

Section 5. Analyzing Community Problems
