deployment, docker, virtualization 0 Version 2009 of Windows Admin Center (WAC) includes an update to the Container extension, which allows the

**Update Program Build And** container feature to be installed on a host. You can also use it to create images and run containers based on them. In addition, there is a simple monitoring function.

### Create and run Docker containers with Windows Admin Center

In addition to Docker releasing an

update to Docker Desktop, Microsoft has released an update to our Docker extension for Visual Studio Code. With the new 1.6 release of the extension, you can now right-click on an image from Azure Container Registry (ACR) or Docker Hub and deploy it directly to Azure Container Instances (ACI).
